The energy to go clean™

Sponsor the Leading Clean Energy Event

The 2009 Comverge Clean Energy Users' Conference

The Comverge Users' Conference is headed to the great state of Texas.

From April 5-8, energy industry professionals and commercial and industrial customers will come together to gain insight on new technologies, current trends, and important regulatory issues.

Of course, the event won't be all work and no play – attendees will enjoy an entertaining offsite networking party, and have the choice of participating in the annual golf tournament or relaxing with a luxurious spa treatment.

The conference committee is currently seeking sponsors for the 2009 Comverge Users' Conference. As a sponsor, you can demonstrate your leadership in the growing Clean Energy industry and get your message in front of the people who really matter. If you are interested in a sponsorship package, please complete the sign-up form included with this prospectus, and fax it to 973.884.3504 or e-mail rlicata@comverge.com.

Please direct any questions concerning sponsorships to Racheal at 973.947.6054.

Thank you for your interest in sponsoring the 2009 Comverge Clean Energy Users' Conference. We look forward to seeing you in Houston.
